INDEX OF AUTHORS

ALLEN, T. D. 143
ALTMANN, G. G. 289

BALASZ, J. E. 129
BENNETT, D. C. 167
BONNER, J. T. 19
BRIDGES, K. 167

EVTODIENKO, Y. V. 47

FIEDERLEIN, R. 27

GLASSER, L. 27
GORDON, S. 109

HAACKE, B. 1
HALL, P. F. 57
HAMBORG, M. A. 129
HARRIS, R. 143
HARRISON, C. J. 143
HEIDEMANN, S. R. 129

JACK, E. M. 143
JOYNER, B. D. 19

KAJSTURA, J. 75
KERSKEN, H. 1
KIBLER, R. 27
KIM, Y. V. 47
KOROHODA, W. 75
KUDZINA, L. Yu. 47

LINDE, A. 27
LINDLEY, S. 129
LONERGAN, T. A. 197

MCAULEY, P. J. 225, 241
MCILVAIN, J. H. 263
MCKAY, I. A. 167
MICHALIK, M. 75
MOORE, A. A. 19

NAKAOKA, Y. 185

OLBRICHT, K. 1
OOI, H. 185
OSAWA, S. 57

PAPE, R. 1
PAYNE, C. M. 27
PERREAULT, J. G. 263
PERRYMAN, M. 209
PLATTNER, H. 1
POULOS, B. 27

RAHAT, M. 87
ROBAGLIA, A. 255

SEÏTE, R. 255
STOKER, M. 209
SUTHERS, H. B. 19
SWANSON, J. A. 19

TAKEMOTO, K. 93
TAKEUCHI, I. 93
TIEDTKE, A. 155

VAUX, D. J. T. 109

WARNER, F. D. 263
WESTPHAL, C. 1

YAMOMOTO, A. 93

ZAPOROWSKA-SIWIAK, E. 75
ZINCHENKO, V. P. 47

INDEX OF SUBJECTS

Actin
localization in *Euglena* cell shape study: LONERGAN 197
Adrenal cells
purification of plasma membranes: OSAWA & HALL 57
Adrenal chromaffin cells
of rat adrenal medulla, nucleoli and fibrillar centres: ROBAGLIA & SEÏTE 255

Basal bodies
in isolated pellicles of *Tetrahymena:* TIEDTKE 155

Ca^{2+}
in regulation of ciliary reversal in *Paramecium*: NAKAOKA & OOI 185
Ca^{2+} transport
changes in mitochondria in *Tetrahymena* culture cycle: KIM, KUDZINGA, ZINCHENKO & EVTODIENKO 47
Calmodulin
localization in *Euglena* cell shape study: LONERGAN 197
cAMP
in regulation of ciliary reversal in *Paramecium*: NAKAOKA & OOI 185
Capsule shedding
in *Tetrahymena pyriformis*: TIEDTKE 155
Cell cycle
of symbiotic *Chlorella*: MCAULEY, I, II 225, 241
Chlorella
cell cycle, host feeding and algal cell growth in symbiosis: MCAULEY, I 225
competition in chimeric infections of *Hydra viridis*: RAHAT 87
symbiotic, effect of continuous darkness on cell cycle: MCAULEY, II 241
Chromosomes
human metaphase, EM and SEM: HARRISON, JACK, ALLEN & HARRIS 143
Cilia
of *Tetrahymena*, rebinding of dynein ATPases to extracted doublet microtubules: WARNER, PERREAULT & MCILVAIN 263
regulation of reversal in *Paramecium*: NAKAOKA & OOI 185
Conditioned medium
in study of embryo fibroblasts: STOKER & PERRYMAN 209
Culture
of diploid human cell strain, melanocyte differentiation: BENNETT, BRIDGES & MCKAY 167
Culture cycle
of *Tetrahymena*, changes in mitochondrial Ca^{2+} transport: KIM, KUDZINA, ZINCHENKO & EVTODIENKO 47
Cytoskeleton
interaction with cytoplasmic face of phagolysosome membrane: VAUX & GORDON 109

Density-dependent cell survival
of Ehrlich ascites cells in various substrates for energy metabolism: ZAPOROWSKA-SIWIAK, MICHALIK, KAJSTURA & KOROHODA 75
Dictyostelium discoideum
origin of prespore vacuoles: TAKEMOTO, YAMOMOTO & TAKEUCHI 93
Dictyostelium stoloniferum
asexual life cycles in starved amoebae: BONNER, JOYNER, MOORE, SUTHERS & SWANSON 19
Differentiation
of melanocytes in diploid human strain: BENNETT, BRIDGES & MCKAY 167
Division factor
in cell cycle of symbiotic *Chlorella*: MCAULEY, I 225
Dynein ATPases
of *Tetrahymena*, rebinding to extracted doublet microtubules: WARNER, PERREAULT & MCILVAIN 263

Ehrlich ascites cells
density-dependent survival in various substrates for energy metabolism: ZAPOROWSKA-SIWIAK, MICHALIK, KAJSTURA & KOROHODA 75
Epithelial cells
rat small intestine, nucleolar compaction under various conditions: ALTMANN 289
Epithelium
scatter factor released by embryo fibroblasts: STOKER & PERRYMAN 209
Euglena
regulation of cell shape: LONERGAN 197
Exocytosis
synchronous, in *Paramecium* cells: PLATTNER, PAPE, HAACKE, OLBRICHT, WESTPHAL & KERSKEN 1

Fibrillar centres
of rat adrenal medulla, nucleolar: ROBAGLIA & SEÏTE 255
Fibroblasts
embryo, release epithelial scatter factor: STOKER & PERRYMAN 209
Freeze-fracture
in study of synchronous exocytosis in *Paramecium*: PLATTNER, PAPE, HAACKE, OLBRICHT, WESTPHAL & KERSKEN 1

Golgi apparatus
in study of origin of prespore vacuoles in *Dictyostelium*: TAKEMOTO, YAMOMOTO & TAKEUCHI 93
Green hydra
effect of continuous darkness on cell cycle of symbiotic *Chlorella*: MCAULEY, II 241
relation between feeding and *Chlorella* growth in symbiosis: MCAULEY, I 225
Growth inhibition
by epithelial scatter factor from embryo fibroblasts: STOKER & PERRYMAN 209

Hydra viridis
chimeric infections by *Chlorellae*: RAHAT 87

Immunoelectron microscopy
in study of origin of prespore vacuole in *Dictyostelium*: TAKEMOTO, YAMOMOTO & TAKEUCHI 93
Inner and outer arms
of dynein in *Teterahymena* cilia: WARNER, PERREAULT & MCILVAIN 263

Junctions
organization in epithelial cells affected by source of conditioned medium: STOKER & PERRYMAN 209

Lineage
of melanocytes in diploid human strain: BENNETT, BRIDGES & MCKAY 167

Macrophages
intracellular antigens associated with phagolysosome surface: VAUX & GORDON 109
Maturation
of columnar epithelial cells with decrease in nucleolar size: ALTMANN 289
MDCK cells
sensitive to scatter factor from MRC5 cells: STOKER & PERRYMAN 209
Melanocytes
differentiation in diploid human cell strain: BENNETT, BRIDGES & MCKAY 167
Membranes
of *Paramecium* cells, resealing and retrieval: PLATTNER, PAPE, HAACKE, OLBRICHT, WESTPHAL & KERSKEN 1
Metaphase
chromosomes, EM and SEM: HARRISON, JACK, ALLEN & HARRIS 143
Microtubules
in immature *Xenopus laevis* oocytes: HEIDEMANN, HAMBORG, BALASZ & LINDLEY 129
Mitochondria
changes in Ca^{2+} transport in *Tetrahymena* culture cycle: KIM, KUDZINA, ZINCHENKO & EVTODIENKO 47
Mitosis
in cell cycle of symbiotic *Chlorella*: MCAULEY, I, II 225, 241
Monoclonal antibodies
in study of intracellular antigens associated with phagolysosome surface: VAUX & GORDON 109
MRC5 cells
release epithelial scatter factor: STOKER & PERRYMAN 209
MSH
effect on Nohm-l cells in presence of 10% FCS: BENNETT, BRIDGES & MCKAY 167
Myosin
localization in *Euglena* cell shape study: LONERGAN 197

NK cells
surface features by SEM: PAYNE, LINDE, KIBLER, POULOS, GLASSER & FIEDERLEIN 27
Nucleolus
compaction under various conditions in rat small intestine: ALTMANN 289
in chromaffin cells of rat adrenal medulla: ROBAGLIA & SEÏTE 255

Oocytes
immature, of *Xenopus laevis*, microtubules: HEIDEMANN, HAMBORG, BALASZ & LINDLEY 129

Paramecium
regulation of ciliary reversal: NAKAOKA & OOI 185
synchronous exocytosis: PLATTNER, PAPE, HAACKE, OLBRICHT, WESTPHAL & KERSKEN 1
Pellicles
isolated, contain basal bodies of *Tetrahymena pyriformis*: TIEDTKE 155

Plasma membranes
from adrenal cells, purification and properties: OSAWA & HALL 57
Prespore vacuole
origin in *Dictyostelium*: TAKEMOTO, YAMOMOTO & TAKEUCHI 93

Radioautography
in study of origin of prespore vacuole in *Dictyostelium*: TAKEMOTO, YAMOMOTO & TAKEUCHI 93

Scatter factor
epithelial, released by fibroblasts: STOKER & PERRYMAN 209
Secretion
in *Paramecium* cell membranes: PLATTNER, PAPE, HAACKE, OLBRICHT, WESTPHAL & KERSKEN 1
SEM
study of human natural killer and antibody-dependent cytotoxic cells: PAYNE, LINDE, KIBLER, POULOS, GLASSER & FIEDERLEIN 27
Starvation
of *Dictyostelium* amoebae, successive life cycles: BONNER, JOYNER, MOORE, SUTHERS & SWANSON 19
Stereology
in study of nucleoli and fibrillar centres of rat adrenal medulla chromaffin cells: ROBAGLIA & SEÏTE 255
Steroidogenesis
role of adrenal cell plasma membranes: OSAWA & HALL 57
Symbiosis
competition between *Chlorellae* in chimeric infections of *Hydra viridis*: RAHAT 87
effect of continuous darkness on cell cycle of *Chlorella* in hydra: MCAULEY, II 241
relation between host feeding and algal growth: MCAULEY, I 225

Tetrahymena pyriformis
culture growth cycle, changes in mitochondrial Ca^{2+} transport: KIM, KUDZINA, ZINCHENKO & EVTODIENKO 47
isolation of pellicles containing basal bodies: TIEDTKE 155

Xenopus laevis
microtubules in immature oocytes: HEIDEMANN, HAMBORG, BALASZ & LINDLEY 129
